

V - SATANIC SYSTEMS

Most people completely dismiss or don't begin to understand real magic and sorcery or the power God has given to Satan, fallen angels, and demons. Much effort has been expended by Satan and his supporters in an attempt to make the spiritual realm, particularly real magic, look contrived and fake. God warns us that there are many types of real magic including divination (telling the future), sorcery (drugs and potions), spell casting, and spirit conjuring. In the Old Testament, God demanded that if anyone was caught promoting or using any forms of magic, they were to be killed by stoning.

God tells us that Satan is "the ruler of this world" and "the prince of the power of the air". We aren't told why God has made Satan the ruler of the world, but this is a very literal thing that most people fail to accept or fully understand. Through the use of magic, evil people can contact and speak with demons, fallen angels, and even Satan. Satan always requires "works" or "sacrificial payments" for people to gain any type of benefit from his powers. What this means is that the more people sacrifice when performing the magical incantations, the more power Satan will allocate to them to use. The sacrifices range from small animals to humans and particularly infants or babies. We are told many times in the bible about the people sacrificing their children to Baal or Moloch by burning them alive. It's almost impossible for a normal God fearing person to comprehend how depraved and confused a person needs to be in order to kill their own son or daughter by burning them to death. When people perform these satanic rituals, demonic spirits manifest themselves and perform certain types of "evil miracles" and "mysterious works" for the individual(s) performing the ritual.

Based on much research, I strongly believe this is still being done today; however, it's done in secret rather than openly as in the past. People participating in these rituals are usually the extremely rich families who employ witches, warlocks, and sorcerers that have spent most of their lives being trained to perform these satanic rituals. They are given information about the future as well as very specific agendas such as abortion, homosexuality, aliens, evolution, drugs, religious cults, and war. By supporting Satan and his agendas, these people become extremely rich allowing them to manipulate the world leaders and ultimately all of the people of the world through bribery, brain washing, fleshly temptations, and other powerful tactics.

Possibly the most important system supporting Satan and his evil workers is the central banking system of the world. This is not just banks, but it's the entities that print the money for each country (i.e. The Federal Reserve System for the United States) as well as the systems that support them. The support systems include things like the Internal Revenue Service (IRS) which collects taxes from the people, the U.S. Treasury which prints bonds at the request of the Congress that are traded to the Federal Reserve for currency, and the U.S. Mint which prints the actual currency created by the Federal Reserve. I believe the world's central banking system is owned by the richest people in the world who report directly to, and work for, Satan. They are able to create money out of nothing upon request from each country's ruling body. They then lend the money to the prospective countries with interest. The money is then deposited into banks owned by the same rich families and they are able to use something called "fractional reserve banking" to multiply the money they created out of thin air x10 times. They then lend this money to individuals and corporations, with interest, to make nearly unlimited profits.

These same rich bankers use covert tactics to enact "false flag" events (ex. 9-11). These "events" cause division among culture groups, initiate government coups, enact oppressing laws, and ultimately start wars. The bankers then lend huge sums of money to both sides of the warring factions with clauses resulting in full payback plus interest whether a country wins or loses the war. These types of tactics result in countries accumulating huge debts. When the debt comes due, the bankers demand the gold and silver reserves from the prospective countries. When the gold and silver runs out, they demand the natural resources, the land, and even the people.

This is all leading to what is described in **Revelation 13** when we're told that the "beast" (anti-Christ) will have complete control over everyone in the world. There will be a one world government, economic system, and religion. No one will be able to buy or sell without receiving the mark of the beast. Those without the mark will be hunted down and killed. With a little research, you can discover that nearly every aspect of this satanic system is already in place and ready to be implemented after the rapture occurs and the Holy Spirit is removed from the earth.
