

70 - Satan's Banking System

[Revelation 13:16-17] He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name. Everything Satan has done for the last 6,000 years has been leading up to Revelation 13 during which time Satan will make himself out to be God. He will have complete control over the financial system and will literally own the entire world and all of the people living on it. This is being accomplished through debt that is incurred by governments, corporations, and individuals who take interest bearing loans from banks. Satan has chosen the Rothschild family to be his interface into humanity. This family owns and operates all of the central banks throughout the world. It's estimated that they're worth over \$400 Trillion dollars and possess 90% of the world's gold reserves.

Congress & President

A vote is taken to authorize the spending of a particular amount of money for a particular reason (debt).
For an example, we will use:
\$1 Million Dollars

Congress requests the creation of Treasury "T" Bonds to be printed by the U.S. Treasury. This puts the country (people) into debt for the amount requested.

U.S. Treasury

Bonds are printed with a face value, an interest rate (ex.5%), and a maturity date.

The bonds are traded to Federal Reserve Bank for "Federal Reserve Notes" (\$\$)

Federal Reserve System (FED)

The FED takes the bonds and requests that the Treasury print up "Federal Reserve Notes" (dollars) equal to the amount of the bonds. The FED then brokers the bonds through commercial banks which they own. We must realize that the FED has done nothing to earn this money. They are simply handed \$1 Million dollars' worth of bonds. Also, know that the FED is owned by the same people who own the commercial banks (Rothschild Family).

Government spends dollars on programs.

Taxpayer Debt

Credit

Dollars deposited into banks to cover Government's request.

Most of the money is re-deposited into the bank while it's being used.

Commercial Banks

The commercial banks receive the \$1 Million from the Treasury and the \$1 Million in Bonds from the FED. The banks now have a \$2 Million "reserve".

Fractional Reserve Banking

Based on the fact that everyone that has money deposited in a bank doesn't go in all at the same time and withdraw all of their money, banks are legally allowed to extend credit 10 times the amount of money they have deposited. Thus, with \$2 Million dollars in the bank, they can create \$20 Million dollars out of thin air and lend it with interest.

$(\text{Reserve}) \times 10$
\$2,000,000 →
← \$20,000,000

FREE MONEY

Foreign Countries

Bonds are sold to foreign countries (like China). Secret loans are also made to finance the people we're fighting wars against (North Korea, Iraq, etc.)

DEBT

Personal and Business Loans

The Commercial banks take their newly created \$20 Million dollars and loan it out to individuals, families, and businesses (with interest). Credit cards are freely distributed to nearly everyone creating huge amounts of debt and enslaving the masses.

Satan's Profits

Based on an initial request for \$1 Million dollars, the banking system is able to create well over **\$25 million dollars in clean and clear profit** for the Rothschilds. You must realize that this example is insignificant compared to the hundreds of billions of dollars that are being created by the FED each year.

Wars are the most profitable avenues for the bankers. All of the wars for the last several hundred years have been purposely started by the bankers. They lend money to both sides and are guaranteed full payment by the winning country. They own the corporations that create the armaments and speculate in the stock markets against the norms based on insider information. All of this puts countries and governments very deeply into debt to them.

As governments get further into debt, the Rothschilds call in their loans. When the governments can't pay, the banks confiscate their gold and silver reserves. Once the gold and silver is gone, the banks demand land rights and even birth certificates as collateral for the debt.
