

Creation vs. Evolution

3 Main Views on Life

1. Biblical View (Creation).
2. Evolutionary View.
3. Hybrid View that Mixes God and Evolution.

Biblical View (Creation)

- There is a perfect and powerful God.
- He “Created” all current life forms approximately 6,000 years ago during the 6 days described in the Book of Genesis.
- All living things were “Created” by their “Kind” or “Species” just as we know them today.

Evolutionary View

- There is no God.
- By random chance a lower life form occurred billions of years ago when chemicals were electrified.
- This life form slowly evolved, in tiny increments, to all of the different life forms (Species) we know today.
- Everything is continuing to evolve to superior forms and eventually we will become extremely intelligent and powerful like gods.

Hybrid (Biblical-Evolutionary) View

- There is a god (of some sort).
- He created the universe billions of years ago.
- He sat back and allowed evolution to happen.
- At a certain point god chose “humans” and gave them a soul.
- This is NOT what the bible says.
- This view is typically promoted by individuals who do not completely believe the bible.

OLD Hybrid-Evolutionary View

- Darwin is not the first to promote “evolution”.
- All of the false or “cult” religions dating back to the Egyptians, Sumerians, and Babylonians promote some sort of “spiritual evolution”.
- This form of evolution required the individual to die and then they would be reincarnated as a greater (or lesser) being depending on how they lived their life.

Alien Hybrid-Evolutionary View

- There are super evolved aliens or “gods”.
- They “seed” planets with DNA in order to promote life (directed panspermia).
- This is where the story of “Prometheus” came from...he was one of the gods and he wanted to help humans become like god so he gave us fire to help us.
- This lie blends aliens, evolution, and technology together to form “gods”.
- This is also known as the Raëlian Movement which teaches that life on Earth was scientifically created by a species of extraterrestrials, which they call the elohim.

God Tells Us That the Bible is Credible

[2 Timothy 3:16-17]

All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness, that the man of God may be complete, thoroughly equipped for every good work.

The Book of Genesis

- The first book in the bible is called “Genesis”, which means “Beginnings”.
- In Genesis, God clearly describes the process of creation and formation that took place during a period of six 24 hour days.

The 1st and 2nd Days

- During the 1st two days, God prepared the space needed to support life.
- *God allowed light to “be”. (Day 1)*
- *God separated a huge mass of water with a “firmament” which he called “heaven”...This was the sky and outer space. (Day 2)*

The 3rd Day

- On the 3rd day God gathered the seas together, formed dry land, and brought forth plant life...

[Genesis 1:11-13]

Then God said, "Let the earth bring forth grass, the herb that yields seed, and the fruit tree that yields fruit according to its kind, whose seed is in itself, on the earth"; and it was so. And the earth brought forth grass, the herb that yields seed according to its kind, and the tree that yields fruit, whose seed is in itself according to its kind. And God saw that it was good. So the evening and the morning were the third day.

The 4th Day

- On the 4th day God formed the Sun, the Moon, and the stars.

The 5th Day

- On the 5th day, God created everything that lives in the water and flies in the air.

[Genesis 1:20-23]

Then God said, "Let the waters abound with an abundance of living creatures, and let birds fly above the earth across the face of the firmament of the heavens." So God created great sea creatures and every living thing that moves, with which the waters abounded, according to their kind, and every winged bird according to its kind. And God saw that it was good. And God blessed them, saying, "Be fruitful and multiply, and fill the waters in the seas, and let birds multiply on the earth." So the evening and the morning were the fifth day.

The 6th Day

- On the 6th day, God created all land animals, all insects...

[Genesis 1:24-25]

Then God said, "Let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, each according to its kind"; and it was so. And God made the beast of the earth according to its kind, cattle according to its kind, and everything that creeps on the earth according to its kind. And God saw that it was good.

The 6th Day

- And finally, at the end of the 6th day, God created Mankind...

Genesis [1:26-31]

Then God said, "Let Us make man in Our image, according to Our likeness; let them have dominion over the fish of the sea, over the birds of the air, and over the cattle, over all the earth and over every creeping thing that creeps on the earth." So God created man in His own image; in the image of God He created him; male and female He created them...Then God saw everything that He had made, and indeed it was very good. So the evening and the morning were the sixth day.

According To Its “Kind”

- One final point before moving on...
- The Hebrew word used for “kind” is “meen” which means “species”.
- This is very important because this defines the uncrossable genetic lines we know and are all aware of.
- It is impossible for two “kinds” or “species” to have valid and sustainable offspring.
- In most cases two different species cannot mate; However, in the rare case that something does cross these genetic boundaries, its offspring is infertile making it impossible for another generation to be conceived.

According To Its “Kind”

- An example of this is when a horse is cross bred with a donkey and it makes a mule.
- The mule is always infertile and cannot breed.
- A mule has 63 chromosomes which results from the mixture of the horse’s 64 chromosomes and the donkey’s 62 chromosomes.
- This is always a “one shot deal” and there are no recorded cases of a fertile mule.

Please Note!

- I am NOT saying that the Earth and the Universe are only 6,000 years old.
- I believe the bible has a valid interpretation that supports an old earth and universe and that God only created all current life forms approximately 6,000 years ago.
- I believe both scripture and physical evidence strongly supports the possibility that the earth and universe were re-formed from their “formless and void” state during this 6 day period but their original creation was much longer ago.
- This will be covered in another presentation.

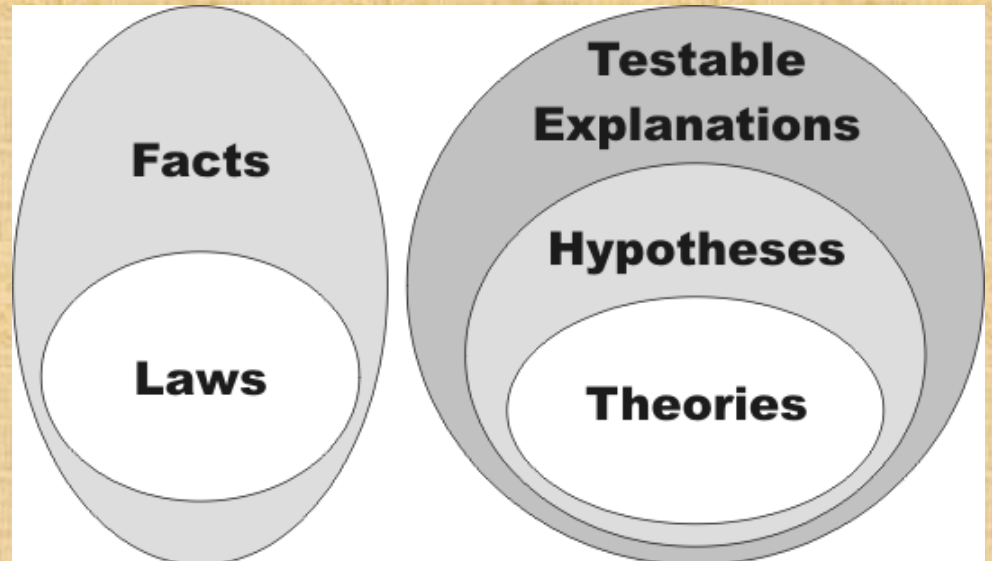

What Does Science Say?

- Let's do a review of the scientific definitions of some of the terms we'll be using...

Fact (Truth)

- A fact is something that is known and is true all the time.
- Examples: $2 + 2 = 4$ or the sun is bigger than the earth.

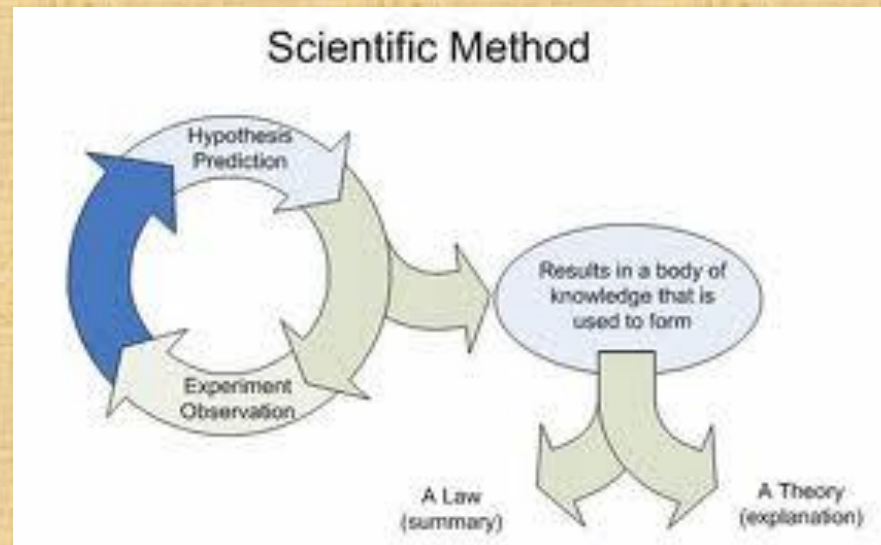

Fact (Truth)

- The bible is the most important “truth” we have.
- Jesus said “...For this cause I was born, and for this cause I have come into the world, that I should bear witness to the truth. Everyone who is of the truth hears My voice.” [John 18:37]

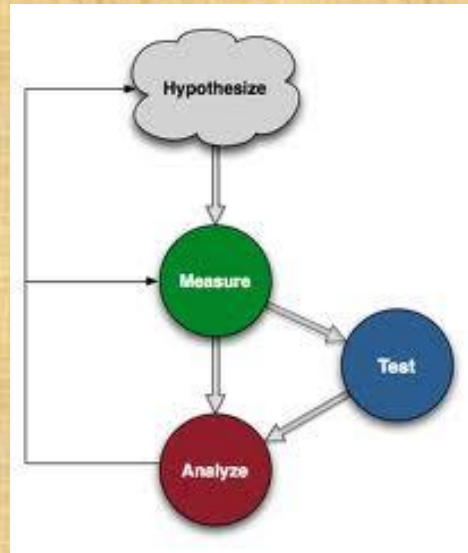

The Scientific Method

- When something is not a fact, it is usually characterized through use of the “Scientific Method”.
- This is a method of procedure that has described natural science since the 17th century.
- It consists of systematic observation, measurement, and experimentation, and the formulation, testing, and modification of hypotheses.

Hypothesis

- A hypothesis is an educated guess, based on observation.
- Usually, a hypothesis can be supported or refuted through experimentation or more observation.
- A hypothesis can be disproven, but not proven to be true.

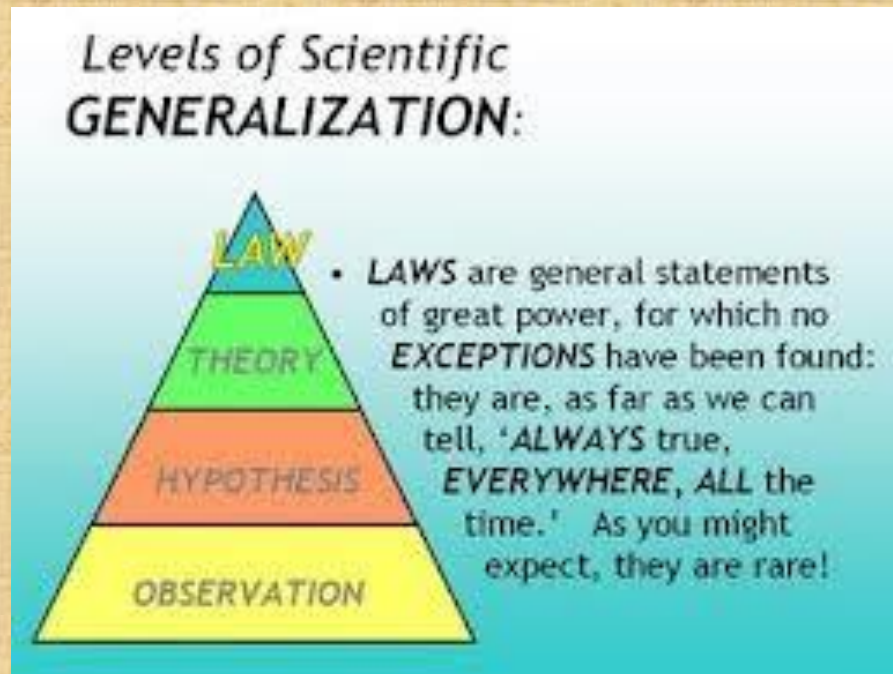

Theory

- A theory is a hypothesis that has been investigated through experimentation and observation and seems to be correct most of the time.
- A theory is valid as long as there is no evidence to dispute it.
- Like hypotheses, theories can be disproven but not proven.

Law

- A law generalizes a body of observations.
- After a theory has been tested for an extended period of time using all possible methods of experimentation and observation and no exceptions have been found, then it is changed to a law.

The Theory of Evolution

- Also referred to as “Natural Selection”, is a gradual process in which something changes into a different and usually more complex or better form by numerous, successive, and slight modifications over a very long period of time.
- Mainly attributed to Charles Darwin.

Who Was Charles Darwin?

- Born on February 12th, 1809 in England.

Older Charles Darwin

Darwin and Religion

- Darwin's family was "Nonconformist Unitarian" which basically meant that they believed in some sort of god but they had an open mind to anything that made sense.
- He had many high and low points with respect to his belief in God throughout his life.
- He was baptized and went to a boarding school at the Church of England.
- He attended Cambridge University to become an Anglican Clergyman...At this time he believed strongly in the literal truth of the Bible.

Darwin and Religion

- While at Cambridge, Darwin became very interested in science and was greatly influenced by John Herschel.

John Herschel

- John Herschel was an English mathematician, astronomer, chemist, photographer and inventor.
- He had extremely perverted views of God and religion.
- He tried to find a natural explanation for everything.

Darwin Turning From God

- Darwin became close friends with many powerful and influential men and began questioning the literalness of the bible.
- In December of 1831, Darwin embarked on a five year journey around the world on the HMS Beagle.
- This was the beginning of Darwin's turn from God and religion.

Journey of The HMS Beagle

- Captain Robert Fitzroy invited Darwin along on the journey as a companion and to investigate geology as well as make natural history collections.

Journey of The HMS Beagle

- The 5 year journey circled the globe.

Darwin's Return

- By the time the Beagle returned on October 2nd, 1836, Charles Darwin was already a celebrity in scientific circles.
- His former professor John Stevens Henslow had promoted Darwin by circulating his geological letters.
- Darwin began to organize his collections, collaborate with other scientists, and write.

Emma Wedgwood (Darwin)

- Married Emma Wedgwood (who was his first cousin) in 1839.

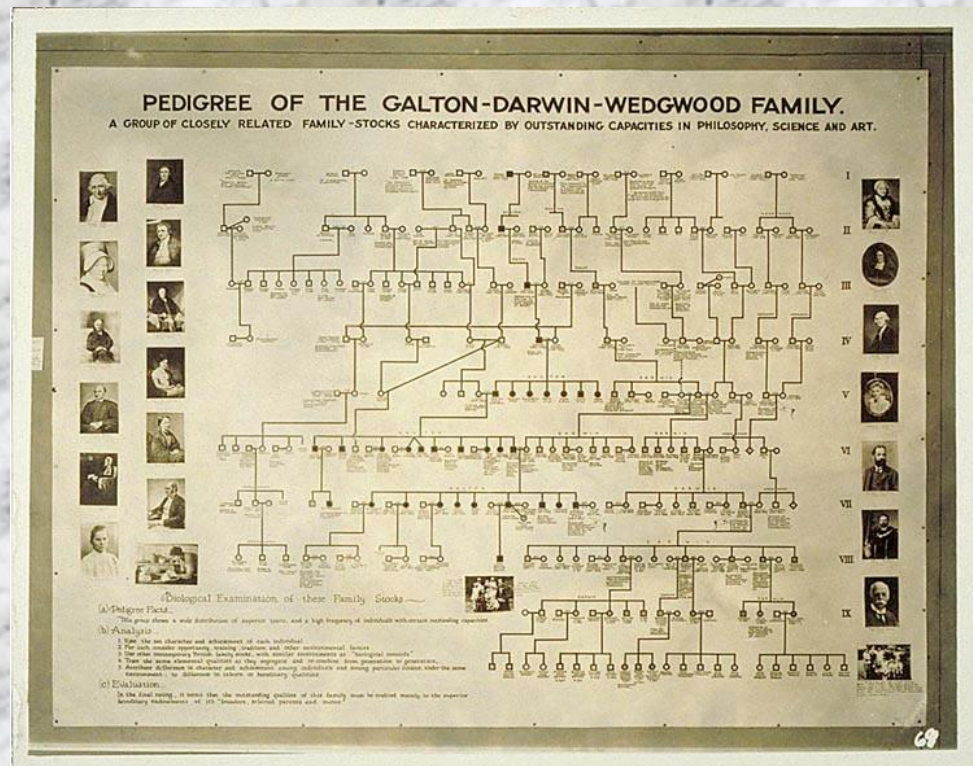

Eugenics

- A social philosophy advocating the improvement of human genetic traits through the promotion of higher reproduction of people with desired traits (positive eugenics), and reduced reproduction of people with less-desired or undesired traits (negative eugenics).

Purposeful Inbreeding

- It was discovered that the Darwins, along with the Wedgewood and Galton families practiced purposeful eugenics.
- This has huge implications and supports an elitist agenda that goes back many generations.

10 Children

- Charles and Emma had 10 children...Annie died at the age of 10.
- Annie's death devastated Charles Darwin and he was always concerned her death was due to inbreeding with his 1st cousin Emma.

On The Origin of Species

- In September of 1838, Darwin first conceived of his Theory of natural Selection.
- After much work and many health issues, the book was published and went on sale on November 24, 1859.

On The Origin of Species

- This book is based entirely on speculation and derived from observation of natural processes.
- This book is the foundation for the Theory of Evolution we refer to today.
- In the introduction to the book, Charles Darwin stated that he had very few facts to support his general conclusions but he hoped to someday find these facts in order to prove his theory true.

Abstract/Introduction

- “This Abstract, which I now publish, must necessarily be imperfect. I cannot here give references and authorities for my several statements; and I must trust to the reader reposing some confidence in my accuracy. No doubt errors will have crept in, though I hope I have always been cautious in trusting to good authorities alone. I can here give only the general conclusions at which I have arrived, with a few facts in illustration, but which, I hope, in most cases will suffice. No one can feel more sensible than I do of the necessity of hereafter publishing in detail all the facts, with references, on which my conclusions have been grounded; and I hope in a future work to do this. For I am well aware that scarcely a single point is discussed in this volume on which facts cannot be adduced, often apparently leading to conclusions directly opposite to those at which I have arrived. A fair result can be obtained only by fully stating and balancing the facts and arguments on both sides of each question; and this cannot possibly be here done.” (Charles Darwin, “On the Origin of Species”, 1859)

No Proof!

- None of these supporting facts have ever been found, compiled, or published because they do not exist!

Darwin Confirms No Belief in God

- It is clear by the following statement contained within Darwin's book "On The Origin of Species" that he once believed in God but had changed his view...

Darwin Confirms No Belief in God

- “Although much remains obscure, and will long remain obscure, I can entertain no doubt, after the most deliberate study and dispassionate judgment of which I am capable, that **the view which most naturalists entertain, and which I formerly entertained--namely, that each species has been independently created--is erroneous.** I am fully convinced that species are not immutable; but that those belonging to what are called the same genera are lineal descendants of some other and generally extinct species, in the same manner as the acknowledged varieties of any one species are the descendants of that species. Furthermore, I am convinced that Natural Selection has been the main but not exclusive means of modification.” (Charles Darwin, “On the Origin of Species”, 1859)

The Theory Has Been Proven False

- Evolutionists have never found, compiled, or published any facts to advance the theory of evolution to a law.
- There have been many facts found since Darwin's time that disprove the theory of evolution.
- Several of Darwin's conclusions have also been specifically proven to be incorrect.

Evolution is NOT Science

- The study of evolution or being an “evolutionist” is not a form of science.
- This is simply a form of speculation based on observations and opinions.
- It is similar to 2 drunks who try to come up with the most believable story about what to tell their wives when they get home.
- Evolution is a devious contrivance of lies and truths in order to support a personal agenda.

Our Proof

- We will focus on 3 main reasons why the theory of evolution was proven to be wrong many years ago:
 1. Irreducible complexity.
 2. Intelligent source requirement for Information.
 3. No intermediary fossil record exists.

Irreducible Complexity

- An argument by proponents of intelligent design that certain biological systems are too complex to have evolved from simpler, or "less complete" predecessors.
- In other words, certain biological systems will cease to function if any part is removed.
- This proves that certain things, like a living cell, had to be created all at once and could not have evolved in steps.

Irreducible Complexity

- Charles Darwin Stated:
“If it could be demonstrated that any complex organ existed, which could not possibly have been formed by numerous, successive, slight modifications, my theory would absolutely break down.” (Charles Darwin, “On the Origin of Species”, 1859)

Irreducible Complexity

- What this means that if anything exists in nature that is irreducibly complex, Darwin's theory is incorrect.
- Because the true inner workings of the cell were not understood at Darwin's time, they were unable to prove this.
- During Darwin's time, they were able to see cells but they did not have powerful enough microscopes to see the inner workings of the cell.
- They believed cells were composed of a jelly-like substance or a "protoplasm".
- There was absolutely no appreciation of the incredibly complex "machines" that all work together within each cell.

Cell Structure

- Let's take just a quick look at the main parts within a typical living cell...

Cell Structure

1. Cell Wall – Support and Protection (Plant Cells Only)
2. Plasma (Cell) Membrane – Defines the cell boundary and regulates the passage of molecules into and out of the cell.
3. Nucleus – Storage of genetic information as well as the synthesis of DNA and RNA.
4. Nucleolus – Ribosomal subunit formation.
5. Ribosome – Protein Synthesis.
6. Endoplasmic Reticulum (ER) – Synthesis and/or modification of proteins and other substances and distribution by vesicle formation.
7. Rough ER – Protein synthesis.
8. Smooth ER – Various processes including lipid synthesis in some cells.
9. Golgi Apparatus – Processing, packaging, and distribution of proteins and lipids.
10. Lysosome – Intracellular digestion.
11. Vacuole and Vesicle – Storage of substances.
12. Peroxisome – Various metabolic tasks.
13. Mitochondrion – Cellular respiration.
14. Chloroplast – Photosynthesis (Plant Cells Only)
15. Cytoskeleton – Shape of cell and movement of its parts.
16. Cilia and Flagella – Movement of cell.
17. Centriole – Formation of basal bodies (base of anchoring structures for flagella) (Animal Cells Only).

Cell Structure

- Please realize that each one of these 17 cell structures is actually its own incredibly complex factory filled with dozens if not hundreds of smaller and yet more complex parts that are creating, storing, and regulating specifically required chemicals and molecular structures for use within the cell and/or export to other cells for supporting other processes of life.

Cell Structure

- If any one of these cellular pieces was taken away, not only would that cell cease to function but also any other external cells that required support from this cell type would also cease to function.
- What this means is that the entire cell structure had to be **Created** at the same moment and that it could have never evolved in successive steps.

Cell Structure

- It is absurd for someone to be intelligent enough to understand the complexity of living cells but to not understand the statistical impossibility of something like this just accidentally coming into being.
- **[Romans 1:22] Professing to be wise, they became fools...**

Cell Structure

- There are an estimated 50 to 100 Trillion cells in the average adult human body depending on the size of the person. Each cell plays an important role to support the function of that body.

Intelligent Source Required for Data

- This is the theory that all information must come from an intelligent source. As stated by Dr. Werner Gitt in his book *"In the Beginning Was Information"*:
 - There is no known law of nature, no known process, and no known sequence of events that can cause information to originate by itself in matter.
 - When its progress along the the chain of transmission events is traced backwards, every piece of information leads to a mental source, the mind of the sender.
- We will focus specifically on the human genome (DNA) and the fact that it is comprised of huge amounts of complex information that needed to come from a creator.

Intelligent Source Required for Data

- It is necessary for all information (structured data) to come from an intelligent source.
- At the time when Darwin was alive, the workings of the human cell and the existence of DNA were unknown.
- Since DNA was discovered, it has been amazing scientists and others as to the incredible amount of complex data that is contained within a single strand of DNA.

Intelligent Source Required for Data

- DNA is located in the nucleus of every living organism's cell.
- There are incredible “micro-machines” within the cell and the bodies of living organisms that are capable of breaking apart, copying, transporting, and re-assembling pieces of information that is contained within a strand of DNA.

Intelligent Source Required for Data

- The complete Human genome consists of approximately 750 million bytes of information, in the form of chromosome pairs, which is used to build all of the parts required for a fully functional human body.

Intelligent Source Required for Data

- There are approximately 750,000,000 bytes of information in a set of human DNA.
- There are approximately 2000 bytes of information on an 8½" x 11" piece of writing paper.
- This equates to 375,000 pages of complex information contained in the human genome.

Intelligent Source Required for Data

- **QUESTION:** Where did all of that wonderful information come from?
- **ANSWER:** From the Almighty GOD of the universe!
- **[Psalms 139:14]** I will praise You, for I am fearfully and wonderfully made; Marvelous are Your works, And that my soul knows very well.

No Intermediary Fossil Record

- If the theory of evolution was correct, a huge fossil record should exist between a less evolved species (example – monkey) and the more evolved species (example – humans) that shows the “middle” or intermediate steps of evolution. (and you would think there would be no more monkeys?)
- We will focus on the fact that there are fossils for monkeys and fossils for humans, but there are no fossils for the dozens or possibly hundreds of intermediate stages that would be required for a monkey to evolve to a man.
- This is true for every species.

No Intermediary Fossil Record

Charles Darwin Stated:

“The main cause, however, of innumerable intermediate links not now occurring everywhere throughout nature depends on the very process of natural selection, through which new varieties continually take the places of and exterminate their parent-forms. But just in proportion as this process of extermination has acted on an enormous scale, so must the number of intermediate varieties, which have formerly existed on the earth, be truly enormous. **Why then is not every geological formation and every stratum full of such intermediate links? Geology assuredly does not reveal any such finely graduated organic chain; and this, perhaps, is the most obvious and gravest objection which can be urged against my theory. The explanation lies, as I believe, in the extreme imperfection of the geological record.**” (Charles Darwin, “On the Origin of Species”, 1859)

No Intermediary Fossil Record

- What this means is that if we take an example of humans evolving from monkeys, the monkey would be the less evolved step, then there would be hundreds or maybe thousands of “intermediate” steps, then it would finally become the humans we are today.
- We can find bones for monkeys, and we can find bones for humans; however, there are no bones for any of the “intermediary” or middle steps.
- This is because God created monkeys and God created man as two separate and distinct species.

Did Someone Say Caveman?

- What about the caveman bones?
- Aren't they the intermediary link?

Fraud and Deception

- Every picture ever drawn and every life size model ever sculpted that depicts a “cave man” or “monkey man” have been purely artwork based on absolutely nothing real.
- There have been no “cave man” skulls ever found.
- It is absolutely impossible for an ethical scientist to create these depictions from the menial evidence presented.

Ernst Haeckel

- Ernst Haeckel was a zoologist and an accomplished artist and illustrator who lived from 1834 to 1919.
- He was also one of the most obscene con artists of all times.
- Haeckel purposely used his artistic skills to create fraudulent illustrations in an attempt to become famous and to support evolution.

Fraudulent Skull

Fake Skull

- Drawing from (*Ernst Haeckel's*, "Evolution of Man", 1920) presents a skull labeled "Australian Negro" as an intervening evolutionary stage between the "Mediterranean" skull and those of the lower primates.
- **This is very nice artwork but it is scientific FRAUD!**

Fraudulent Embryos

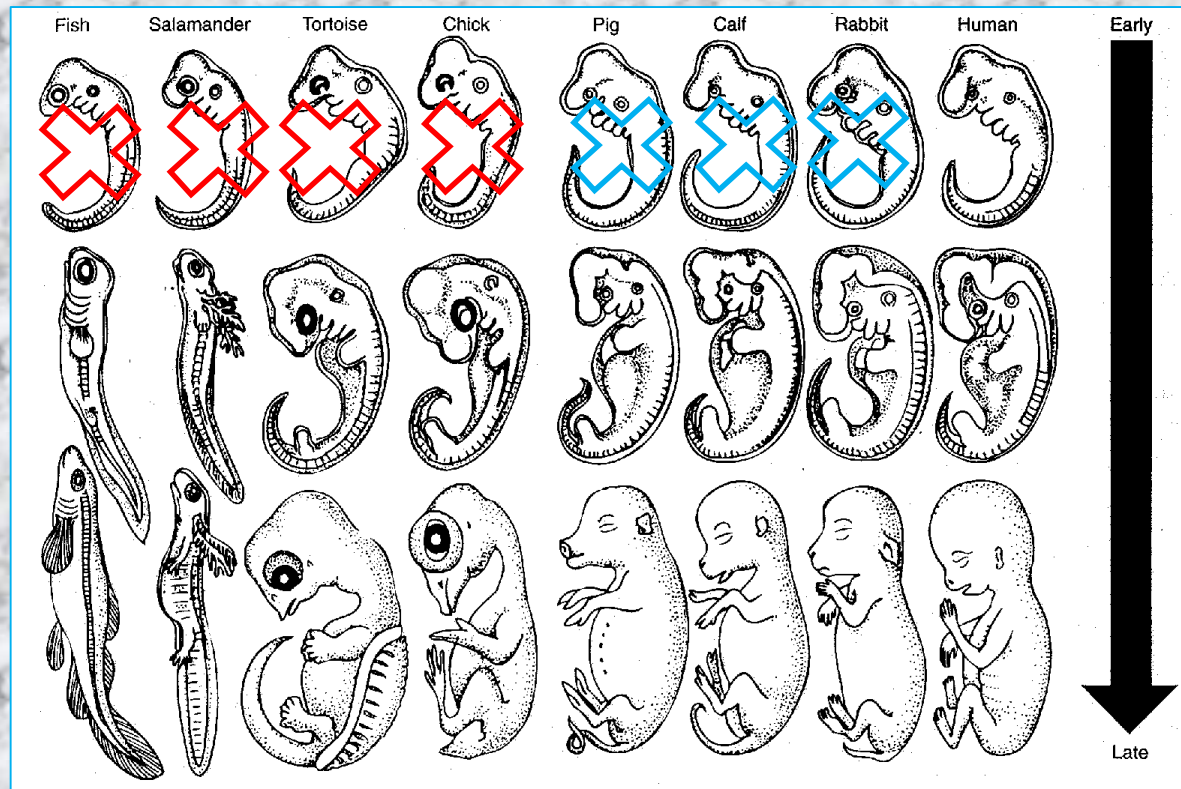

- Drawing from (*Ernst Haeckel's, "Evolution of Man", 1920*) presents a comparison of embryos from different species. These were later proven to be fraudulent.
- The point of this diagram was to show how the early stages of development look the same and then they change drastically later in development.
- Unfortunately, this diagram has been used in text books for nearly 100 years.

Fake Drawing

Not Early
Stage of
Development

Real Embryos

Paleoanthropology?

- Haeckel's fraudulent illustrations are just the tip of the iceberg when it comes to evolutionary fraud. The most damaging and heinous frauds have occurred in the field of paleoanthropology.
- Paleontology is the scientific study of prehistoric life (dinosaurs) and Anthropology is the study of humankind, past and present.
- Paleoanthropology is the study of "cavemen" and is a baseless field of study created to make inept or criminal men rich and famous.

Fraud and Deception

- Let me be very clear in stating that every “intermediary” fossil of man that has ever been found, in other words “caveman fossils” , have been proven to be incompetent mistakes or purposeful frauds.
- Typically, a single bone or very few bone fragments are found and then an artist is coerced into drawing a rendition of what the caveman might have looked like.
- The person who found the bone(s) is always the one directing the artist and in many cases they are the artist.

Cavemen

- There are cases of ape bones being mixed with human bones (Piltdown), bones from humans being misrepresented through artwork (Heidelberg, New Guinea, Cro-Magnon), bones from an arthritic man being misrepresented (Neanderthal), and even a pig tooth that was built up into an entire Nebraska Man.

Heidelberg Man

- A partial skull discovered near Heidelberg in Germany in 1907 and named by Otto Schoetensack. Later proven to be the skull of a normal human.

Heidelberg Man

- The artist of this fraudulent scene has quite an imagination.

Nebraska Man

- An entire body was artistically and fraudulently built up from a single tooth.

Nebraska Man

- The tooth was later proven to be from an extinct form of boar.

FIG. 2.—Comparison of the Second Superior Molars of the Right Side of the Upper Jaw in the Primates.
 Upper row : crown views of the superior molars.
 Middle row : anterior views of the same teeth.
 Lower row : posterior views of the same teeth.
 (1) Hesperopithecus, the new Nebraska Primate, middle-aged.
 (2) Anthropopithecus, a young chimpanzee.
 (3) Pithecanthropus, adult Trinil Ape-man.
 (4) Hesperopithecus (photographed in a different light).
 (5) *Homo sapiens mongoloides*, aged North American Indian.
 (6) Third superior molar of Anthropopithecus, a young chimpanzee
 All photographed to the same scale and natural size.

Piltdown Man

- The first fragments of the Piltdown skull were found in 1908 by estate workers digging in the grounds of Barkham Manor at Piltdown.
- The skull fragments were given to Charles Dawson who represented the owners of the estate.
- Dawson searched the site and gathered up more pieces of the skull.

Piltdown Man

- Dawson (left) contacted **Arthur Smith Woodward** (right) (1864-1944), who was a paleontologist and in charge of Geology at the British Museum (Natural History Museum) in London.
- An apelike jawbone was “found?” in the area and pieced together with the skull fragments.

Piltdown Man

- The “Piltdown” location became a party zone for reporters and geologists making both Dawson and Woodward famous.

Piltdown Man

- Later it was determined that it was a human skull and the jawbone of an ape that were put together to form a purposeful fraud.
- The jawbone was actually filed down in spots to make it fit with the human skull.
- It took 40 years (until 1953) for this to be properly reviewed and proven to be a hoax.

Peking Man

- Supposedly 300,000 to 500,000 year old skull fragments were found in a cave near Peking China in a 1923 to 1927 excavation.

Peking Man

- Between 1929 and 1937 many more bone fragments were found in the cave.

Peking Man

- Most of the study on these fossils was conducted by Davidson Black until he died in 1934.
- The original fossils disappeared in 1941 during World War II leaving only casts and written descriptions.

Peking Man

- The artists can never seem to agree on the face.

Neanderthal Man

- Partial skulls and bone fragments found in a cave in Belgium in 1829 by Philippe-Charles Schmerling.
- They were estimated to be between 30,000 and 45,000 years old.

Neanderthal Man

- All of the bones have been proven to be human.

Neanderthal Man

- Uncountable thousands of dollars and hours have been spent creating fantasy scenes and artificial models to promote these mistaken cave men (and women).

Cro-Magnon Man

- Louis Lartet (a French geologist) discovered the first five skeletons of this type in a rock shelter named Abri de Crô-Magnon in 1868 .

Cro-Magnon Man

- Elaborate migration patterns and cultural scenes have been created in order to support these specimens.

Cro-Magnon Man

- All of the skulls have been proven to be human and not of any special type.

Lucy

- One of the greatest frauds ever committed was (and still is) “Lucy”.
- The bone fragments shown below were found in 1974 by Donald Johanson (excavation team leader) in Ethiopia.

Lucy

- These bone fragments were found over a huge geographic area and most have been proven to be non-hominid bones (not related to man) and they have also been shown to come from more than 30 individual skeletons.

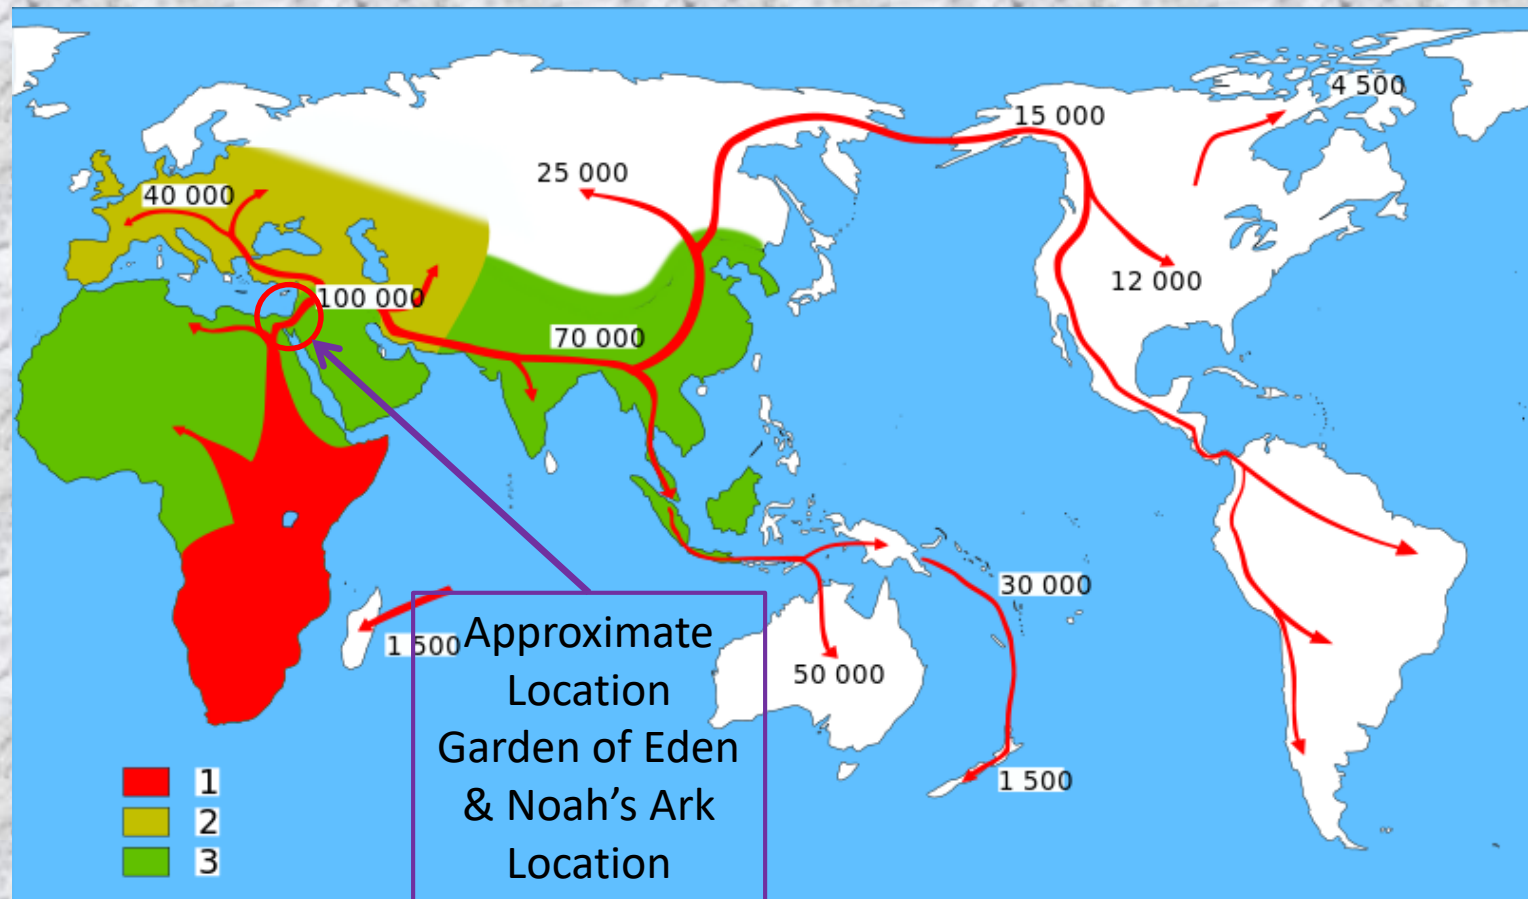

Lucy

- If you look closely at the 8 photographs, you will notice that none of them are presented the same.
- You would think something supposedly this important would be presented consistently by such a world renowned expert.

Human Migration

- It's not surprising that the migration estimates of human beings from the beginning of history basically point to the area thought to be the location of the biblical garden of Eden as well as Mt. Ararat where Noah's Ark landed.

Conclusion

- Since the Egyptians and Babylonians, Satan has used lies and corrupt men to suppress the truth about God and creation.
- There have been several different forms of evolutionary agendas throughout the centuries.
- Both Hindus and Buddhists believe that based on the quality of life you live, you may evolve into a greater life form or devolve into an animal through a reincarnation process.
- Mormons believe that God evolved from a simpler life form over billions of years and progressive reincarnations and that we can all evolve into a god if we work hard enough.

Conclusion

- When we are born, God gives us all an internal understanding of Him and His creation; However, as we grow older and allow the lies of the world to influence us, we drift further and further from the truth of God and creation.
- We try to explain things with our own intelligence and attempt to dismiss God so that we do not need to have any accountability.
- Evolution is more a hatred of God than an attempt at logic or intelligence.

Conclusion

- **[Romans 1:18-23] For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who suppress the truth in unrighteousness, because what may be known of God is manifest in them, for God has shown it to them. For since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse, because, although they knew God, they did not glorify Him as God, nor were thankful, but became futile in their thoughts, and their foolish hearts were darkened. Professing to be wise, they became fools, and changed the glory of the incorruptible God into an image made like corruptible man-and birds and four-footed animals and creeping things.**
